

INSTRUCTIONS FOR BIOPSY

Clean the wound with hydrogen peroxide and Q-tips **once daily**. Clean off any dried blood or scabbing.

Dry the wound with gauze.

Liberally apply ointment (e.g. Vaseline, Aquaphor, Polysporin or Neosporin) to the wound. Cover with non-adherent dressing cut to size and apply paper tape (non-allergic tape).

Should you have any questions, please call us directly at 503-691-1122 during business hours.

After business hours, please page Dr. Kao/ Keleigh at 503-724-2909.

Please make a post-operative appointment in ____ day(s).
